*structress.*

### APOTHECARY

WILLIAM VAN KORB, M.D.

### CHIEF CLERK

GEORGE G. CALHOON.

# REPORT

## OF THE BOARD OF MANAGERS TO THE CONTRIBUTORS

Your Board respectfully submit herewith the forty-first annual report of the work of the Hospital for the year 1908.

### HOUSE CASES

	<i>1907</i>	<i>1908</i>
Surgical.....	191	189
Nervous.....	408	436
Total.....	599	625

### CLINICAL CASES

SURGICAL:	<i>1907</i>	<i>1908</i>
New,.....	586	675
Old.....	1,560	1,896
Revisits.....	2,396	2,958
Total.....	4,542	5,529
NERVOUS:		
New.....	1,154	1,587
Old.....	4,096	4,859
Revisits.....	5,922	7,522
Total.....	11,172	13,968
Operations.....	198	175

The large increase in cases as shown above has taxed the resources of the Hospital not only in the use of the buildings, but has required the utmost care in expenditures, so that at the end of 1908 the ratio of expense to efficiency might be as moderate as possible.

Your Board has given consideration to the additional demands for which increased service arises each year and feels that the following pressing improvements should especially receive attention during the year 1909.

The erection of an Isolation Ward into which contagious cases, developing from time to time in the regular wards, can be placed until they can be removed to hospitals equipped for such diseases. The necessity of such a ward has been notably exemplified not only during the year 1908, but also on each and every occasion where a contagious disease has broken out, such a ward would take care not only of developed cases, but also of those necessarily under observation for a definite period for which no proper accommodation now exists.

Tentative estimates show that an Isolation Ward would cost about \$20,000.

The staff has repeatedly called attention to the desirability of open air wards for such cases as require this special form of treatment.

The Board feels that this much needed improvement would add vastly to the successful treatment of a large number of patients with symptoms of tuberculosis. There are always a sufficient number of such cases to fill two wards, each having a capacity of seven beds, and such an addition would greatly relieve the pressure in the existing wards. These two wards of seven beds each, would cost about \$25,000.

Both of these additions, being of the utmost importance, should, we feel, be consummated as soon as the funds can be obtained, and the attention of the friends of the Hospital is most earnestly called to the urgency of its needs, inasmuch as the management, much as it desires to do so, is powerless to make these improvements under the present financial condition of the Treasury.

The Psychopathic Clinic of the out patient service for mental diseases established in 1908, under the direction of Dr. Charles W. Burr has amply proven the demand for its place in a hospital treating diseases of the Nervous System.

The accumulated deficit in the maintenance fund up to May 31, 1907, amounted to \$13,246.66, of which \$10,519.94 was transferred in February last to the General Fund, which accounts for the large decrease shown in the deficit in the Treasurer's Statement. This is virtually transferring the

deficit to a capital account and was proposed by the Treasurer in order to simplify the bookkeeping of the Hospital.

The deficit including unpaid bills for the year amounts to \$7949.53. A very serious condition confronts the Board each year in view of this ever increasing deficiency.

The School of Massage and Electricity, although highly efficient, is to be further improved by extending the course from four months to seven months, thereby providing a full course of instruction in all branches in the theory and practice of Massage and Electricity.

The Training School for Nurses continues to maintain its high reputation.

The graduating exercises of the class of 1908 were held on November 27th; ten nurses received diplomas.

The thanks of the Hospital are due to the Rev. Philip Steinmetz, Jr., and Dr. Morris J. Lewis, for their addresses, and also to the Vestry of the Epiphany Church for the use of the Parish House for the evening.

Donation Day was held on April 9, 1908, and the Hospital is greatly indebted to all those who generously contributed both in money and materials.

Mrs. Charlton Yarnall endowed by a gift of \$3000 a perpetual free bed for children, in memory of Alexander B. Coxe, and Miss Julia Garrett has again shown her interest by a donation of \$11,000 to the Endowment for Free Beds; Mrs. C. H. Brock has donated \$500 and Mrs. Eckley B. Coxe \$300 to the same fund.

To the General Fund Mr. Eckley B. Coxe, Jr., has presented \$1000 and Miss Rebecca Coxe \$500. To the Special Fund for the purchase of orthopaedic appliances Miss Margaret Clyde has given \$500.

The sincere thanks of the Board are due to all those who have so liberally contributed to the support of the Hospital, and you are respectfully referred to the detailed statement of the Treasurer for a list of the contributions.

The Women's Committee has, during the year, given great attention to visiting the Hospital, and its interest for the benefit of the patients has been most thoroughly appreciated.

For details of the operations of the Hospital you are respectfully referred to the Reports of the Treasurer, Staff and Superintendent.

The Board desires to express its appreciation of and thanks to the House Officers and employees who have so intelligently and faithfully performed their various duties.

All of which is respectfully submitted,

C. HARTMAN KUHN,

*President.*

# REPORT

## OF THE WOMEN'S COMMITTEE

---

MRS. WILLIAM ANTHONY PLATT . . . . . *Chairman.*

MISS ELIZABETH HAYS . . . . . *Secretary.*

MRS. TALCOTT WILLIAMS . . . . . *Treasurer.*

MRS. JOHN H. BRINTON,

MISS M. R. COLES,

MRS. CHARLES B. COXE,

MISS M. H. CADWALADER,

MISS J. H. INGERSOLL,

MISS L. DE T. PRIME,

MISS ANNA INGERSOLL,

MRS. SIDNEY W. KEITH,

MRS. JOHN K. MITCHELL,

MISS HENRIETTA MEADE,

MISS CAROLINE SINKLER,

MRS. JOHN CADWALADER, JR.

The Committee has held its regular meetings on the second Tuesday of each month and the attendance has been unusually large. Two members of the House Committee have inspected the Hospital twice in each month and have found it in excellent order.

The patients had their usual summer treats and drives. The roof-garden gives great pleasure to young and old and the children had their kindergarten there during the summer.

The Christmas celebration was held on Saturday, December 26, and was thoroughly enjoyed by all who were present. The children sang carols and several recited little poems. Afterwards the tree was lighted and presents were distributed.

Kindergarten instruction has been given four times a week throughout the year in both the Boys' and Girls' Wards, and the Board desires to express its warm thanks to Miss Sage for her faithful attention to her duties and for the deep interest she takes in the children under her charge, even after they have left the Hospital.

The Knitting Class continues to be much appreciated by the convalescent patients, who are glad to keep their hands busy and delight in being able to make useful articles for themselves.

The resignation of Mrs. John W. Williams, a constant visitor and devoted friend of the Hospital, was received with universal regret.

Mrs. John Cadwalader, Jr., was elected to fill the vacancy caused by the resignation of Mrs. Williams.

The Committee wishes to express its thanks to Miss Wilson, Miss Murray, and Miss Frost for their co-operation with the House Committee.      ELIZABETH HAYS, *Secretary*.

MEN'S SURGICAL WARD

# REPORT

## OF THE SURGICAL STAFF

---

GENTLEMEN:

The Surgical Staff begs leave to report that during the past year the number of new patients applying for treatment in the surgical clinic were 675, and of old patients 1896, and of revisits for massage, electricity, and other treatment 2958, making a total of 5529. This is a very marked increase over last year. The number of patients treated in the house were 189—slightly less than last year, but this has been due to the very serious nature of the diseases from which the patients were suffering, which necessitated longer periods in bed.

The waiting list of patients, particularly for the children's ward, is always a large one, and we would again urge the desirability of increasing the capacity in the children's surgical ward. We would again urge the desirability of providing a special ward for open air treatment of children suffering from tuberculous bone and joint affections.

Respectfully submitted,

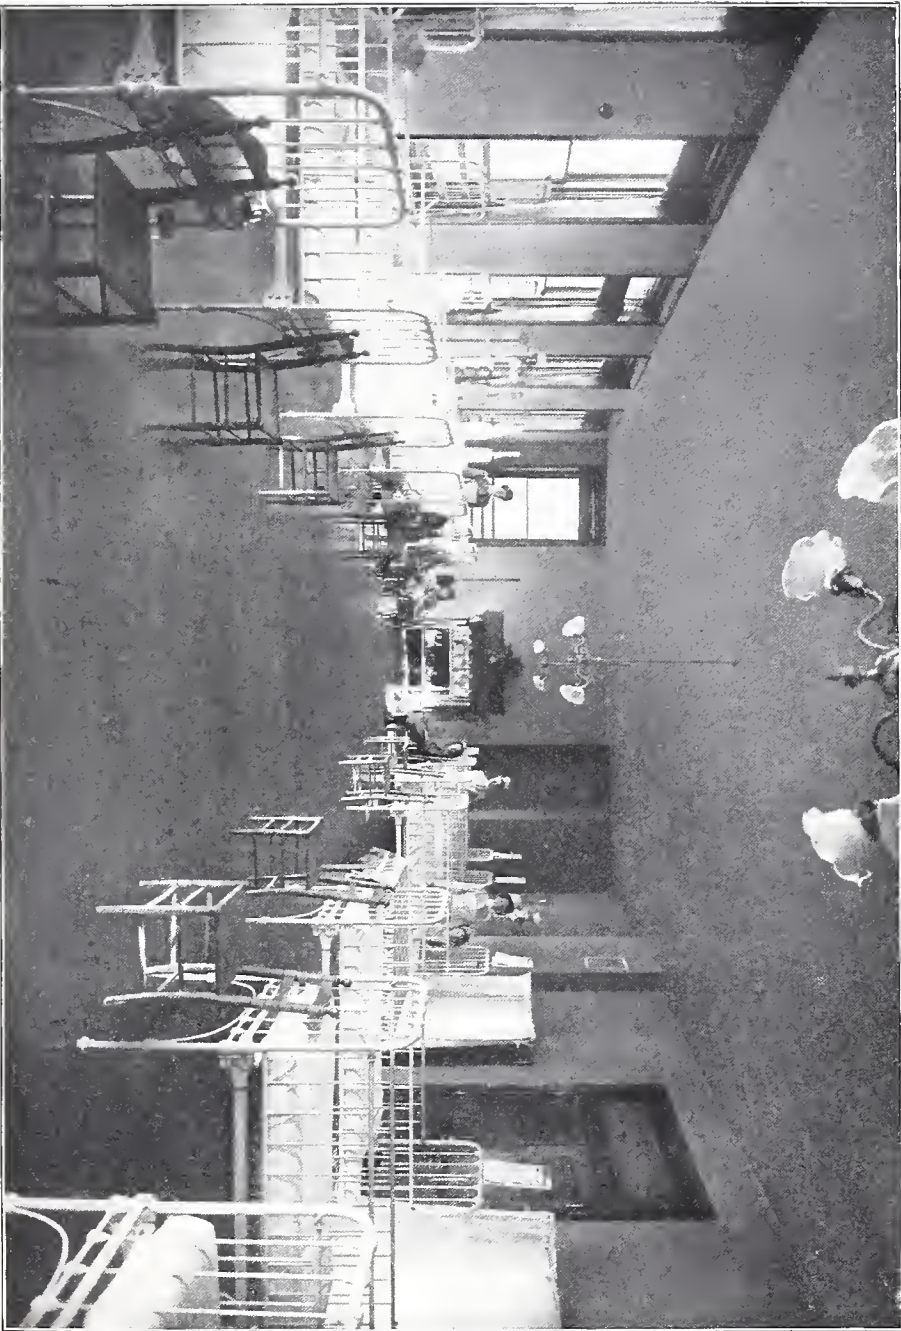

G. G. DAVIS, M.D.

WILLIAM J. TAYLOR, M.D.

RICHARD H. HARTE, M.D.

# REPORT

## OF THE MEDICAL STAFF

---

During the past year the Hospital has received a somewhat larger number of medical house patients than in 1907, 436 in all.

The out-patient department continues to increase, as the following brief table shows:

	<u>1905</u>	<u>1906</u>	<u>1907</u>	<u>1908</u>
New patients.....	1025	1060	1154	1587
Old patients.....	3650	3935	4096	4859
Revisits.....	<u>4033</u>	<u>4047</u>	<u>5922</u>	<u>7522</u>
Total.....	8708	9042	11,172	13,968

In the early part of the past year, an out-patient service for the treatment of mental cases was organized and opened under the care of Dr. Charles W. Burr. This has been called the Psychopathic Clinic and has been well attended. The mental cases which come to the neurological clinics are referred to Dr. Burr, and a large number of cases, whose friends have heard of this service, are brought there direct.

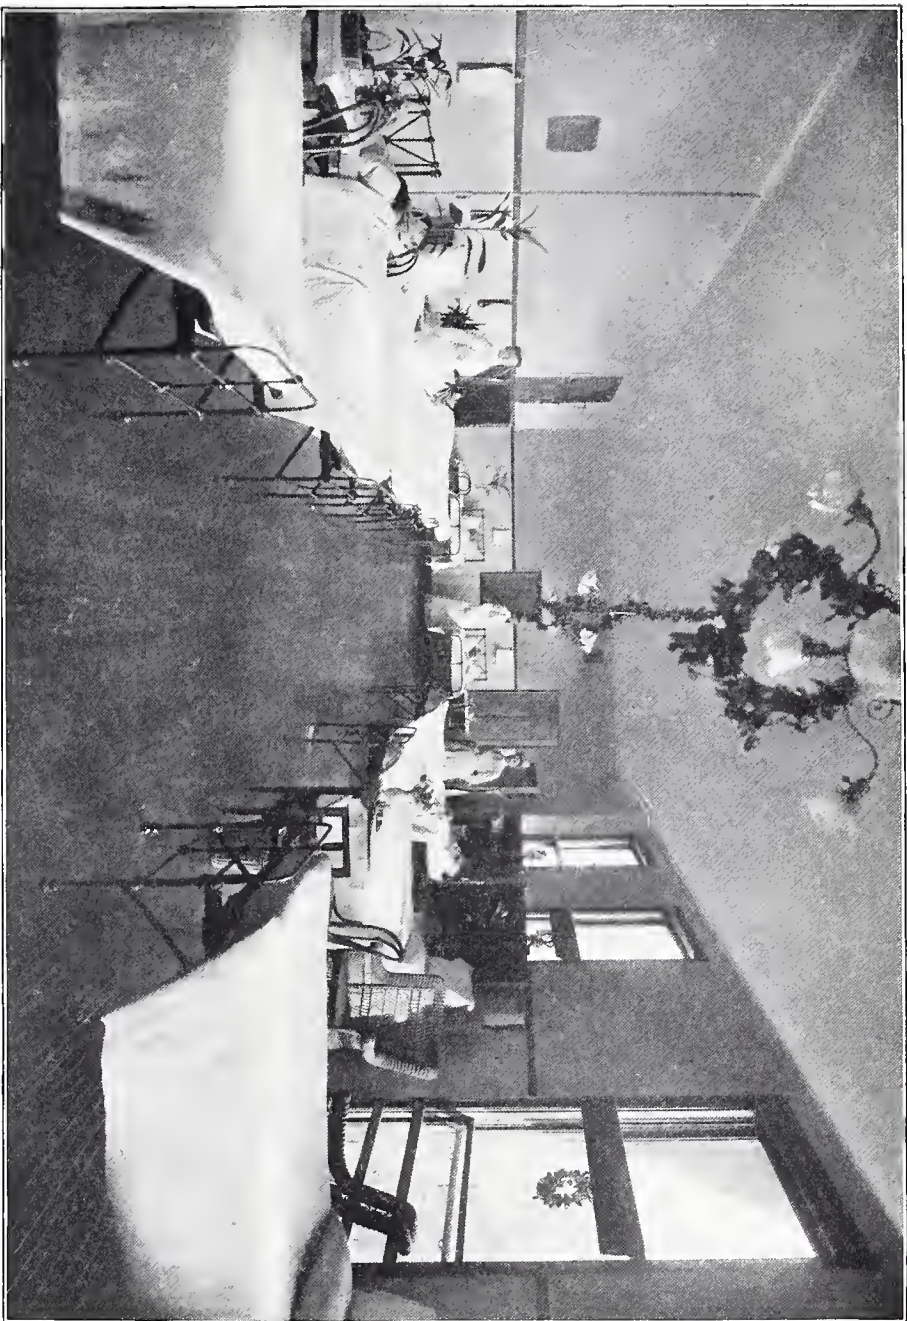

A separate report of the service for mental diseases has been made by Dr. C. W. Burr, but the above totals include the patients seen in this clinic.

WHARTON SINKLER, M.D.,  
MORRIS J. LEWIS, M.D.,  
JOHN K. MITCHELL, M.D.

PRIVATE ROOM

# REPORT

## OF THE SKIAGRAPHER

---

GENTLEMEN:

The Roentgen Ray Department desires to report that the work has been carried on during 1908 as has been usual in past years. The room is in daily use for the treatment of cases and taking of skiagraphs, and the efficiency of the work has been materially increased by the addition of some new appliances and by the fact that during the past year Dr. Van Korb has been developing the negatives daily at the Hospital.

Two hundred and ten skiagraphs have been taken and three hundred and fifty treatments given.

Respectfully submitted,  
S. MASON McCOLLIN, M.D.,  
*Skiagrapher.*

## ON THE TEACHING AND APPLICATION OF ELECTRICITY MASSAGE, AND THERAPEUTIC EXERCISE

---

GENTLEMEN:

The usual two classes in massage, electricity, and therapeutic exercise were given the past year by Dr. J. K. Mitchell, with the addition of special lectures on curvature of the spine by Dr. Taylor, and on massage treatment of fractures by Dr. Davis. The pupils received numbered 25, the fees amounting to \$2012.

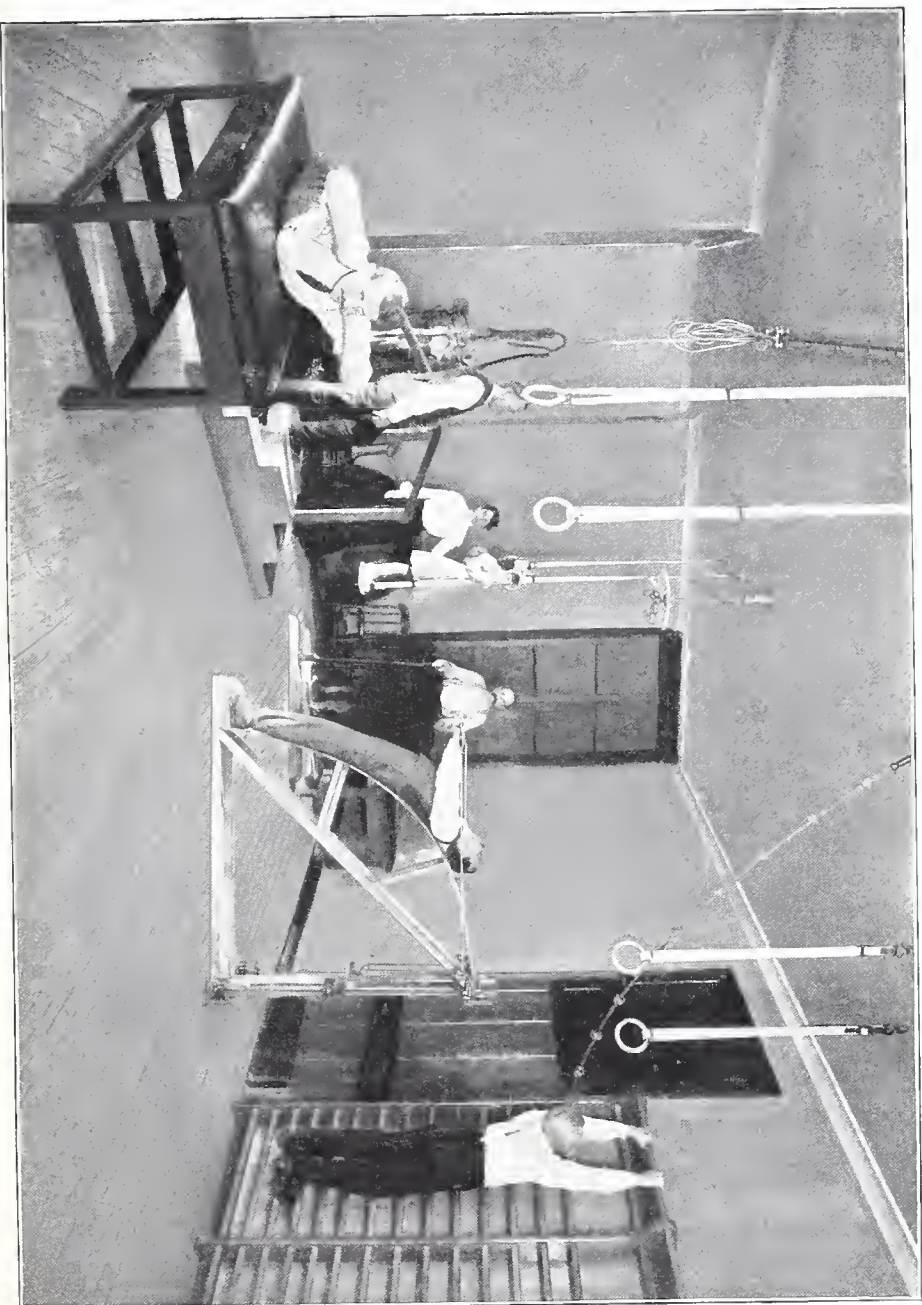

In the out-patient department there was a large increase in the number of treatments given—10,480 in all, those for 1907 numbering 8318. A small fee is charged those patients who are able to pay, whether for massage, electrical, or exercise treatments, the total collected in this way reaching \$628.41, making the receipts for this department \$2640 in cash, in addition to the treatment of ward and private patients in the Hospital, of which no account is made.

Miss Heald, who has taught the classes since 1897 and supervised also the application of massage in the Hospital, has sent in her resignation to take effect after the present courses are finished.

Her enthusiasm and careful teaching has helped greatly to give our pupils and nurses their good reputation for massage and she will be much missed.

Mrs. Meyer, who has assisted with the teaching for several years, will take charge of the work.

JOHN K. MITCHELL, M.D.

GYMNASIUM

# REPORT

## OF THE PSYCHOPATHIC CLINIC OF THE OUT-PATIENT SERVICE FOR MENTAL DISEASES

GENTLEMEN:

The purpose of the Clinic is to treat patients who, though suffering from mental diseases, do not need institutional treatment. Second, to advise the relatives of insane persons who need institutional treatment how they may be admitted to Hospitals for the Insane, and, finally, to treat and advise concerning the education of mentally defective children.

The work of the past year has proved the need of such a Clinic. The service is held weekly on Thursday at one o'clock.

I desire to thank my assistant Dr. Alfred Reginald Allen and the volunteer assistant Dr. William Drayton, Jr., for the faithfulness with which they have attended their work.

I subjoin an abstract of the cases treated during the past year.

CHARLES W. BURR, M.D.

## OF THE TRAINING SCHOOL FOR NURSES

---

GENTLEMEN:

I have the honor to present the twenty-first annual report of the Training School. At the close of the year ending December, 1908, there were in the Training School:

Pupil Nurses (including 2 male nurses).....	20
Probationers.....	6
Total.....	26
Number of pupils admitted on probation.....	17
Accepted.....	14
Resigned.....	1
Advised to resign.....	2
Resigned after 8 months' duty.....	2
Number of graduates during year.....	10

The graduating exercises were held in the Parish House of the Epiphany Chapel, 17th and Summer Streets, on the evening of November 27th.

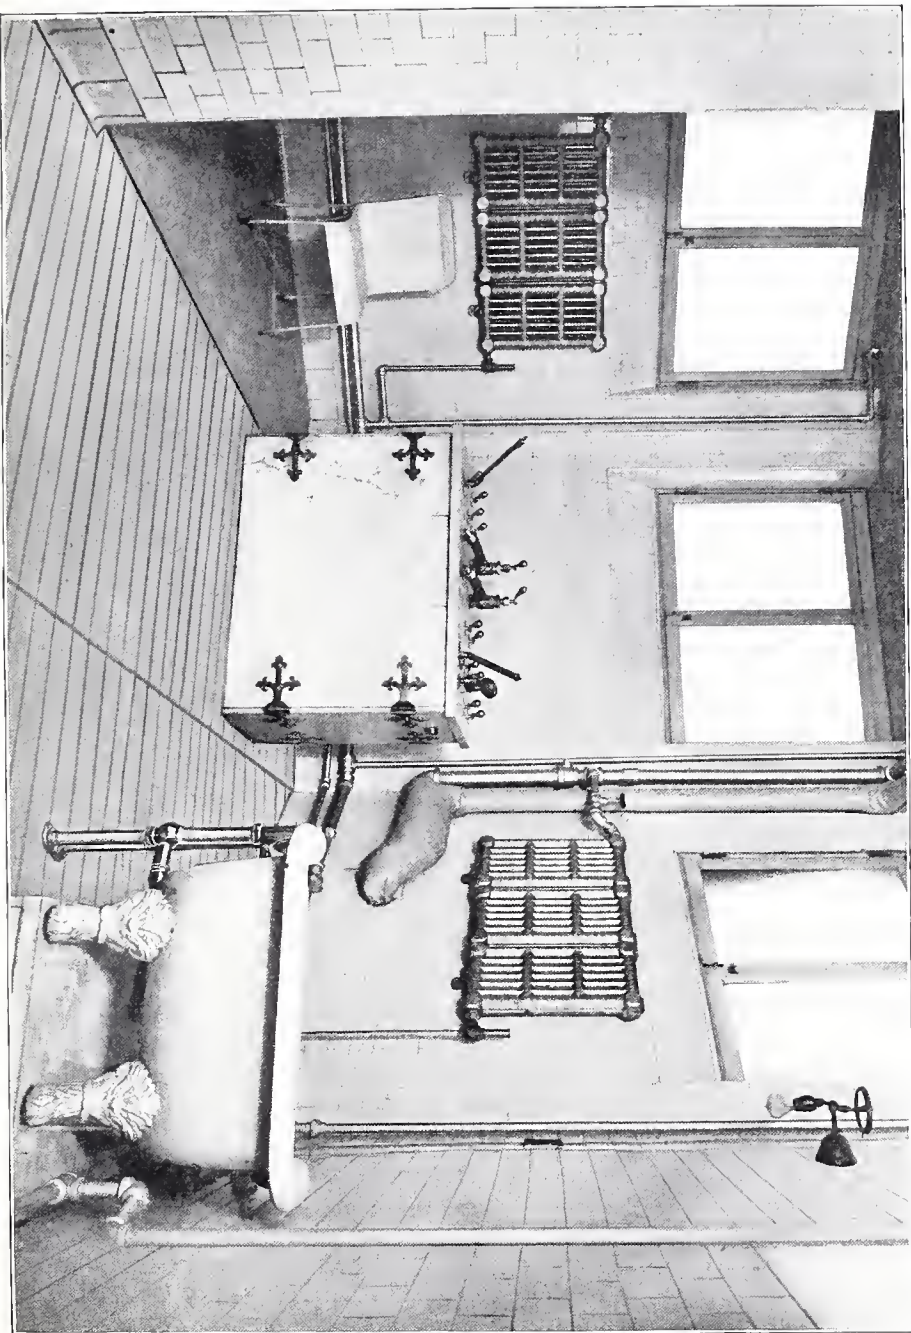

The following nurses received diplomas:

Annie McCarroll Godwin	Alice Maude Goddard
Mary J. Mitchell McElhenney	Mary E. Seckler
Florence Vane Jamison	Anna L. Ziegler
Minnie C. Kuesel	Barbara E. Paul
Frances Hand Hulings	Emma Weinberger Kratz

Miss Annie McCarroll Godwin was awarded the School Pin for highest average.

The Diplomas were presented by Dr. L. Webster Fox, Chairman of the Committee on Schools, Mr. C. Hartman Kuhn, President, presiding.

The addresses of the evening were given by Rev. Philip

HYDROTHERAPY

Steinmetz, Jr., and Dr. Morris J. Lewis. The musical service was conducted by the Choir-master and Choir of Epiphany Chapel. The floral decorations and music were contributed by Mr. John W. Pepper, a member of the Board. After the exercises a reception was given to the graduates and their friends at the Hospital.

On October 1st, Miss Louisa M. Ross resigned her position as Head Nurse to take up private work. Miss Elsie Brehaut, one of the former graduates, was assigned to fill the vacancy.

Miss Isabelle Dunn, graduate of the school, was appointed in May to fill the position of Operating Room Nurse, which took effect June 1, 1908.

We extend our grateful appreciation to the members of the Staff and their assistants and to the Resident Physicians for the weekly lectures given to the pupils in the Training School and for the valuable instruction received.

Respectfully submitted,

MARGARET S. WILSON,  
*Superintendent.*

---

### **RULES FOR ADMISSION OF PUPILS**

Application may be made in person or by letter to the Superintendent of the Training School, who will furnish the necessary papers for completing the application.

Candidates must be between twenty-two and thirty-two years of age. They must be of sound health, and should send a certificate from a physician and oculist with their application, certifying to the fact. They should also send the names and addresses of two responsible persons who know of their good character and capabilities.

Applicants approved will be taken for three months on probation, as vacancies occur. This time is not counted in as part of the two years' course.

Probationers are required, when on duty, to wear pale blue gingham dresses simply made (same as pupil-nurses), round linen collars and the aprons only.

Pupil-nurses are required, when on duty, to wear the dress prescribed by the Institution, which is of pale blue gingham, simply made, white apron and cap, linen collar, and oversleeves.

The right is reserved by the Hospital authorities to terminate at any time the connection of any pupil with the School for inefficiency, misconduct, or for any other reason which may be deemed sufficient.

Pupils will be paid eight dollars per month for the entire course.

This sum is allowed for uniforms, text-books, and other expenses connected with the School, and is in no way intended as salary.

Hours of duty for day nurses are from 7 A. M. to 7.30 P. M.; for night nurses, from 7.30 P. M. to 7.30 A. M.

No nurse is required to do both day and night duty on the same day, except in emergencies.

Each nurse on day duty is allowed two hours after 1.30 o'clock P. M. for rest and recreation; one-half day after 2 P. M. each week, and four hours on Sunday.

Two weeks' vacation is allowed each year.

Nurses may be called upon for four months' regular night duty during the two years, besides special cases to a limited number.

Nurses when sick will be cared for in the Hospital, but payment is stopped and the time so lost must be made up.

Instruction includes:

1. Care of wards and rooms, ventilation and disinfection.
2. Bedmaking, care of helpless patients, giving baths, prevention and treatment of bed-sores.
3. External applications, poultices, fomentations, counter-irritants, cups, leeches, etc.
4. Administration of enemata and the use of the female catheter.
5. Observations of the pulse, temperature, respiration, secretions, state of the skin, mental condition, as to sleep, appetite, effects of diet, or of stimulants and medicines.
6. Surgical nursing, aseptic and antiseptic surgery, tech-

nique of operating room, preparation of surgical dressings, use and care of various appliances, preparation of patient for operation, duties of a nurse during operation, after-care of patient.

7. Bandaging and use of splints.

8. Care of nervous patients, methods of rest cure.

9. Principles of massage and Swedish movements, with practical exercises, application of electricity.

10. Chemistry of food, invalid cooking.

11. Administration of baths in the Hydrotherapy Department.

Lectures and demonstrations are given at certain times by the Medical and Surgical Staffs, their assistants, and the Resident Physicians of the Hospital.

Examinations are conducted by members of the Staff.

When the full term of two years is satisfactorily completed a diploma is given, certifying to their period of training, their proficiency, and their moral character.

This Training School offers special advantages to educated women who are fitted to the work. The private patients in the Hospital afford opportunities to nurses in advanced classes for special instruction and individual responsibility, which is of great value to them when they first engage in private work after graduation.

 Winsor, Mrs. W. D.  
 Wolfsohn, Carl  
 Wyeth, F. H.  
 Wyeth, Stuart  
 Yewdall, John  
 Young, Mary Dwight

## ADMISSION OF WARD PATIENTS

Persons wishing to be admitted should first apply at the Hospital Clinic, at one o'clock P. M., on Monday, Wednesday, or Friday for nervous diseases; and Tuesday, Thursday, or Saturday for deformities, etc. They will then be examined by the attending physician or surgeon, who will refer them to the Superintendent for admission.

APPLICANTS FROM A DISTANCE must forward with their application a statement as to the nature and probable duration of their disease, prepared by a reputable physician.

The Endowment Fund and the support received from the State of Pennsylvania and from contributors are, as yet, insufficient in amount to enable the Managers to maintain all of the beds FREE.

Information as to the charges for PRIVATE ROOMS, and all other particulars, can be obtained by applying in writing to the Superintendent, Philadelphia Orthopædic Hospital and Infirmary for Nervous Diseases, Seventeenth and Summer Streets.

## FREE BEDS

### ENDOWED IN PERPETUITY AND THE NAMES OF THE DONORS

- 1885 Rebecca Coxe....."The Drifton Cot."
- 1886 Charles Tracy Estate .."In memory of Charles Tracy."
